After booking our services, please plan on arranging to have at least two meetings with us so that we can get to know each other, build trust, and tell your personal love story in the best way.

We always shoot with three cinema cameras (high quality HD or 4K UHD video) for the entire duration of your day! In order to capture everything, we will arrive during your preparations and stay with you until your send-off.

At our base package, we digitally deliver a 3-5 minute highlight video, along with your own personal wedding film website to share with your family and friends! You can decide to add-on Drone Footage and/or RAW footage a la carte.

Typically, this will all be delivered within 4-6 weeks of your wedding day.
