

2024-2025 Pricing Guide

Premium Wedding Service

Premium Sound System | Including industry-leading LD Systems™ speakers and subwoofers placed perfectly within your venue to provide unparalleled sound. Our focus is your dance floor. We provide amazing sound without blowing away your other guests throughout your venue.

Dance Floor Lighting | Computer-controlled color wash lighting provides a clean, elegant and fun element to your wedding. Our light shows are designed for weddings in any venue. You won't see colored polkadots on your dress in your photos, just fun lighting synched to the music of your dance.

Independent Ceremony System | If your ceremony is located in a different part of your venue, then this is a must-have feature. We provide an independent ceremony system, with premium speakers, a wireless microphone system, and music service. This allows for a quick turnaround for your reception or cocktail hour - no moving equipment once your guests arrive.

Collaborative Timeline & Playlist App | Gain access to Vibo, our online planning app to help guide you through the timeline and music selection process. You will have access to professionally curated playlists to use for prelude, ceremony, background and dance. We work with you to develop the perfect mix for your day.

Venue Uplighting | Uplights can really transform a venue and truly make it yours. We provide up to 18 fully wireless uplights. They can be static and set to the colors of your theme, or they can be computer controlled and synched to the music of your dance floor.

Never Pay Extra | We don't expect you to know how many speakers you may need, or the type of lighting package that will work with your venue. If extra lighting or speakers are needed, they are provided at no cost to you. We will make your wedding look and sound the best we can. PLUS the following benefits are also included with our service:

- Setup and strike time
- 20-minutes of prelude service as guests arrive
- Emcee service
- Wireless microphones
- Unlimited phone and email access with me, your DJ

\$1,900

4 HOURS

ADDITIONAL HOURS \$150

Available Enhancements

Highlight Videography | A 4-5-minute highlight video capturing all of the important moments from the ceremony through the last dance. Delivered in HD on a thumb drive within 30 days of your wedding (guaranteed). **\$750**

Monogram Projection | Your wedding monogram digitally engraved and projected on your dancefloor or a wall at your venue. Includes design, production, and projection. Plus, you can keep your monogram design and use it for other decoration elements (napkins, signs, etc.) **\$300**
