

PRICING GUIDE & INVESTMENT TIERS

It's not every day you plan a fabulous party and buy flowers in large quantities. As a result, it can be hard to guess how much they might cost. Thankfully, flowers come at various prices, and I look forward to helping you find the perfect ones for your big day. I will do my best to create a proposal that accommodates your budget and reflects your floral dreams. Use the information below to help you set an ideal budget based on your needs. Your target budget helps me tailor a design proposal to meet your needs and stay within budget. Generally, spend approximately 10% of your budget on flowers for basic needs. If you dream of more showy flowers or extensive installations, you must plan on 15-20% or more.
