Fire Bubbles Add on - \$150

Wanting a wow factor that will blow your mind? This immersive experience is something you will never forget as we light different body parts on fire in an extremely safe and a non-painful way. You can just sit back & watch your leg catch a 1-2 foot flame then go out in an instant. Careful though, tie your hair back!

All Fire Bubbles experiences must sign a Liability Waiver & a Consent to Touch waiver. Usually the flame goes out pretty quick, but almost always your fire practitioner's hand will follow up, making contact with the body part that was on fire to ensure safety. For large groups, or alternative lifestyle groups, different color wrist bands can be worn to know interaction comfort levels. There's nothing sexier than clear, enthusiastic consent! Fire Bubbles can be light, family friendly fun for all ages... or your imagination can run wild with your adult-only parties. Rose always picks the perfect entertainer for each event.

Paid Fire Safety Assistant Required
