## Frequently Asked Questions

### **1. What time will you arrive to setup?**

*Our goal is to setup 2 hours before the event. Music is playing 30 minutes prior to event start so when guest arrive music is playing.*

### **2. What are your backup plans for any equipment failures?**

*We setup early enough to ensure that all equipment is working. In the unlikely event that failure is detected, we have backups on-site to exchange the equipment and continue service.*

### **3. Can we select what music we want to be played?**

*You have total control over what music is being played. Just email your request no later than 7 days prior to the event so that we can incorporate your selection into our performance.*

### **4. How do we secure reserve a date with Platinum Entertainment?**

*A ½ down deposit and signed service contract will secure the date.*

### **5. When is the final balance due?**

*Your final balance is due BEFORE the contracted services begin.*
